

# The Inventure Advantage

## Table of Contents

**Grade 7 Cracks the Case: A Hardware Adventure** - A hands-on computer hardware workshop.

**End-of-Year Pool Extravaganza for K2** - K2 students celebrated the end of the year with a pool party! It was a joyous send-off before their summer adventures.

**K2 - Student-led Conference Spotlight** - K2 students took the lead at conferences, presenting their year's learning to parents.

**Learning Came Alive at Ramagondanahalli's Celebration of Learning** - RGHPS, a school adopted by Inventure Academy, held a successful Celebration of Learning (COL) on 8 April 2024.

**Yeshwanthpur Campus Celebrates a Successful First Academic Year** - Inventure Academy Yeshwanthpur Campus celebrated its first year with class parties!

## Grade 7 Cracks the Case: A Hardware Adventure

Our Grade 7 learners went on an epic hardware adventure. Forget classrooms, this workshop was all about cracking open the mystery of what makes their computers tick.

The IT guides led the way, peeling back the layers of a computer like ultimate technical detectives. They first explored the gadgets they already knew, like the trusty monitor and keyboard. They then ventured inside the CPU case, a place usually shrouded in mystery.

Here, the real adventure began. Students got up close and personal with all the cool internal components – the brainy motherboard, the memory-boosting RAM, and more. It was like witnessing a symphony of parts, each playing a vital role in the computer's performance.

But the learning did not stop there. These digital detectives even learned the secret codes that make computers run faster or slower. Now armed with this hardware knowledge, they can compare different computers and pick the perfect one for their needs – no more technical confusion for them.

A massive shoutout to our amazing IT team for making this workshop a smashing hit. Seeing the look of wonder on the students' faces as they explored the world inside their computers, is what made the 'hands on' learning so awesome.

### End-of-Year Pool Extravaganza for K2

Just before setting sail for the summer break, our K2 crew embarked on an epic voyage – a pool party. Shrieks of joy filled the air as our little ones squealed and giggled their way through an afternoon of pure poolside adventure. It was the perfect way to treasure all the hard work they had accomplished this year and weigh anchor on the fantastic voyage ahead.

### K2 - Student-Led Conference Spotlight

At our recent Student-Led Conferences, our youngest learners took center stage, leading their parents on an incredible learning adventure. Imagine a room buzzing with excitement as these tiny teachers proudly presented facets of their year-long journey. Leave aside the traditional report cards; these conferences were all about showcasing the amazing latitude of learning that they had been imbued with over the year.

But the fun did not stop there. With the wisdom of seasoned explorers (and a little help from their amazing teachers), they reflected on each experience, sharing insightful discoveries with their biggest champions – their parents.

These conferences were not just about grades; they were a heartwarming celebration of how our K2 learners have blossomed.

## Learning Came Alive at Ramagondanahalli's Celebration of Learning

This month, Ramagondanahalli Government Higher Primary School (RGHPS), which was adopted by Inventure Academy in 2019, buzzed with excitement. They held their first-ever Celebration of Learning (COL) on April 8th, and it was a resounding success.

COL is a chance for children to showcase the amazing concepts that they have learned throughout the year. It was not just tests and textbooks – it was about bringing their knowledge to life through interactive displays, games, and presentations.

The younger students (Grades 1-5) became water conservation experts. They explored the pipeline of water sources, ways to conserve this precious resource, and then went on to calculate how much water each family uses on a daily basis. Through fun games and quizzes, they shared their knowledge with everyone.

Grades 6 & 7 took us on a fascinating journey through India's history. They created an entire exhibition using recycled cardboard boxes – a great lesson in sustainability too. Students proudly presented each era, from ancient empires to modern times, and then conducted fun quizzes. The most rewarding part was seeing the smiles on the faces of the parents and the positive learning environment at the school.

Inventure Academy has provided valuable resources and programmes such as English language workshops and thematic curricula to RGHPS, and is proud to be associated with the progress made by the school.

## Yeshwanthpur Campus Celebrates a Successful First Academic Year

To celebrate the end of the first academic year at Inventure Academy Yeshwanthpur Campus, our young learners celebrated with class parties. Fueled by laughter and friendship, the classrooms hummed with activity. Our learners and teachers gathered to share stories of missions accomplished (amazing lessons learned) and new discoveries made (awesome friendships formed). They all brought in board games and a supply of delicious treats. With troves of memories and minds brimming with knowledge, our Inventurers at Yeshwanthpur are now ready for a summer filled with exciting new adventures!
