Summer Learning Revolution: Inventure Academy & Arrowsmith Team Up

This year, Inventure Academy has partnered with the Arrowsmith Institute, Toronto and the Adhyan Charitable Trust to launch a first of its kind in India, the Arrowsmith- Cognitive Intensive Program for 6 weeks during summer. At Inventure Academy, Whitefield-Sarjapur, 24 students from Grades 4-8 are participating in the programme.

The Arrowsmith Program is based on neuroscientific research and the philosophy that it is possible to 'rewire' the brain and improve cognitive functioning through a series of cognitive exercises. The Cognitive Intensive Program (CIP) model is intended for anyone who would like to enhance the Symbol Relations cognitive function. Also called Clocks, this is a higher-order cognitive function.

While every child is different, studies show that the typical student experiences improvements in processing concepts across all academic disciplines, understanding and quickly grasping what they read and hear, logical reasoning, seeing connections between ideas, processing information, and making rational decisions.

The gains resulting from strengthening this function are lifelong to all aspects of learning. This resonates with Inventure's [Definition of Learning](#)

A Training Ground for Future Leaders

On April 18th, Inventure Academy conducted a one-day leadership workshop on Innovative Project Management for a select group of 30 faculty members. Led by Vihari Komaragiri, the day wasn't just about lectures, it was an action-packed training session, designed to equip the participants with skills to become confident and agile leaders in their spheres.

Through engaging games, the participants stepped outside their comfort zones, built connections with their peers, and learned to think on their feet – a crucial skill for any leader. This energizing start set the stage for a day of collaborative learning and growth.

Participants then tackled simulated project challenges, thinking of them as mini-quests. Through interactive role-playing, they honed their communication skills, became decision-making ninjas, and learned to solve problems head-on, all in a safe and supportive environment.

By analyzing real-world scenarios, they also unlocked the secrets of effective communication and collaboration. Using systems diagramming techniques, the participants learned to transform complex projects into clear and easy-to-understand roadmaps. Throughout the day, there was a considerable amount of time spent on sharing experiences, exchanging ideas, and strategizing ways to use their newfound skills. It was a collaborative quest for knowledge, and everyone walked away better equipped to conquer any project, big or small.

This collaborative reflection process provided an invaluable opportunity for participants to consolidate their learning, exchange perspectives, and strategize actionable steps for personal and professional development.

Faculty Groove to End the School Year at Yeshwanthpur Campus

Our incredible faculty at Inventure Academy wasn't ready to say goodbye to the school year just yet. To celebrate all their hard work and dedication, they threw a rocking year-end party with a twist: a 70s and 80s theme.

Shahnaz, our very own Master of Ceremonies, kept the energy high with music and fun games, not to forget the delicious feast laid out by the school.

But it wasn't all about fun and frivolity (though there was plenty of that). Ramesh Hariharan, Head of School, delivered a heartwarming speech that left everyone feeling proud of their accomplishments over the past year. And to top it all off, the faculty took a moment to share personal messages of appreciation with each other – a great way to end a fantastic day.

The celebration marked the end of this academic year, and the team now looks forward to the new year with eager anticipation.

Summer Camp at Preschool, Whitefield & Yeshwanthpur Campus

Learning and fun are in full swing at our exciting Summer Camps at the Preschool, Whitefield and at our Yeshwanthpur Campus. The activities range from Gymnastics, Sport, Art, Bharat Games to Yoga, STEAM, Music and Dance. It is an absolute delight to watch the children participate in these activities and stay engaged . Beyond the themed activities, the most rewarding aspect is seeing friendships blossom. Summer Camp provides a safe and nurturing environment for children of all ages to connect, play, and create lasting memories. From teamwork challenges to collaborative art projects, the children are building strong bonds that will extend beyond the summer months.

We have much more in store for the remaining days of Summer Camp!
