Inventure Academy Makes a Splash at Leadership Conference - Inventure at a Leadership Conference at Windsor, UK.

An Incredible Summer Camp at Inventure Schools

As the Summer Camps draw to a close, we reflect on a time filled with unforgettable memories and exciting accomplishments.

Our children at the Yeshwanthpur Campus pulled out all the stops this past week. Dance teams perfected their moves and the music room came alive with the melodies of our young musicians.

On the football pitch, triumphant cheers erupted as the young players executed game-winning goals. Basketball courts saw dazzling displays of teamwork and agility, with some truly unforgettable shots. In gymnastics, the students defied gravity with daring leaps and graceful routines, showcasing their newfound strength, grace and balance. Yoga mats were a haven for relaxation and mindfulness, leaving participants feeling refreshed and energised. Our STEAM workshops were a hive of activity as children dove deep into the wonders of Science, Technology, Engineering, Art, and Math. As the week progressed, children enjoyed 'reflection' time each day when they looked back and recapitulated various facets of what they had learnt.

Over at the Preschool in Whitefield, the excitement was just as contagious. Students diligently practised their dance moves, explored drama, honed their skills at gymnastics, and unleashed their creativity in art & craft.

As the Summer Camp draws to an end, the lessons learnt, friendships forged, and talents discovered will remain vibrant reminders of time well spent. We cannot wait to welcome these young stars and many new ones next year for another season of creativity, athletics, and unforgettable fun.

Please go to the link below to hear what some of our students have to say about their basketball lessons.

Inventure Academy Makes a Splash at Leadership Conference

Inventure Academy, a champion for fostering future changemakers, made a strong impression at the recent ECIS (Educational Collaborative for International Schools) and NEASC (New England Association of Schools and Colleges) Leadership Conference held in the historic Windsor town, United Kingdom.

Themed 'Living Your Mission', the conference focused on the power of purpose-driven leadership in creating a brighter future for students. Inventure Academy, represented by its CEO & Managing Trustee- Nooraine Fazal, Head of Professional Development-Meenakshi Elangovan, and Head of Centre of Excellence-Sowmya Narayanan, actively participated in the three-day event.

Inventure Academy not only attended the conference but also took center stage by sharing their highly regarded Changemaker Program.

With the pressing challenges facing our world in 2024, Inventure Academy's six-year commitment to creating 100,000 Changemakers aligned perfectly with the conference's theme. They have demonstrably empowered young Changemakers by providing funding and guidance to the top ten teams in their program, helping turn their ideas into reality.

The Inventure team's session delved into the specific methods they use to cultivate Changemakers. This included highlighting initiatives like the 'Our Voice' platform, annual productions, and the cornerstone Changemaker Program & Challenge. Following their presentation, the Inventure team led an engaging workshop where participants tackled a real-world issue: water shortage. The interactive session explored the crucial steps of crafting a problem statement and transforming a challenge into a solution that is not only viable but also desirable and feasible.

The Inventure team's session resonated deeply with the attendees, who recognized the critical importance of nurturing changemaking skills in their own students. The success of the session was further underscored by the expressed interest from several participants in joining Inventure Academy's upcoming Changemaker Challenge in July 2024.
