Outbound Trip Bolsters Courage and Confidence

A total of 69 Grade 10 students from Whitefield Sarjapur were taken on an outbound trip to the picturesque Naukuchiatal hill station near Nainital in the Kumaon Hills, a giant leap from Bangalore's latitude of 13 North to Nainital's 30 North! The trip was organized in partnership with Youreka, with emphasis on building courage and decision-making skills.

Students learnt vital lessons on trust, respect and communication on the Friendship Ladder and overcame their latent fears and apprehensions. This was a teamwork activity where participants helped each other to climb up a ladder rigged up in a manner that required a graduated increase in the levels of effort and skill that were necessary to ascend. They went on to learn the skills of kayaking and had a great time on the lake. They also spotted quite a few varieties of fishes in the lake and along the more placid waters of the shore. For that rush of adrenaline, they were introduced to Tree Jumaring, an activity that infused self-awareness, concentration and confidence. This was an individual achievement activity where each participant learnt how to climb up a rope attached to a tree trunk. A night spent outdoors, under the stars, added to the spirit of adventure and novelty.

Youreka's team had creatively designed a line-up of engaging activities such as 'Book Your Day' and 'Minute to Win It', all conducted in a collaborative group setting. Divided into 4 groups (The Kartoosh Kitchen, Chidya Wood, The Mavericks and Mr Nags), students strategized and revelled in the spirit of camaraderie and healthy competition. Youreka's expert team ensured a safe and enriching environment, focussed on empowering students to gain confidence and independence.

Prior to the trip, both students and parents were taken through orientation sessions where they were comprehensively briefed on the trip's theme, goals and the attendant safety protocols, ensuring that everyone felt prepared and confident. A separate briefing was held for the accompanying faculty, guaranteeing a smooth and well-coordinated experience for all.

Celebration of Learning at Yeshwanthpur Campus

Learning experiences at Inventure are designed through our foundational programs of Inventinging 1.0 and 2.0 which are curated to help students to think more laterally and gain an in-depth understanding of how knowledge and skills can be interconnected. Experiential hands-on learning is something we have always believed will help our learners to "realize their full potential, ignite change and create positive impact."

Inventinging 1.0 focussed on building collaborative learning skills through hands-on projects for one week and for the next week. Inventinging 2.0 further built on these skills and focussed on engaging students through field trips that allowed them to explore open ended questions connected to Grade specific concepts in English, Theme based learning and Mathematics. Students jotted down their ideas in customised journals, and the teachers in turn, used students' observations and insights to build on their learning in their classrooms. We believe that creating these unforgettable learning experiences will help to create a life-long love for the pursuit of knowledge.

'Brave Hearts, Kind Words' Campaign at Yeshwanthpur Campus

The 'Brave Hearts, Kind Words' campaign took off on an enthusiastic note, transforming the school into a platform for the next generation of compassionate leaders.

The 'Let's Sprinkle Kindness' activity was a secret mission where students, armed with their biggest smiles and kindest words, surprised their classmates with random acts of kindness. From holding doors open for their classmates to writing encouraging notes, their actions brought grateful smiles all around!

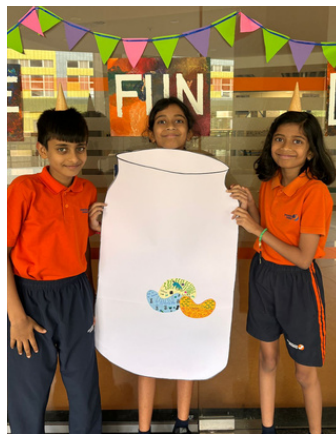

The outcome was heart-warming and students shared stories about how spreading kindness brought in an enhanced sense of wellbeing and cheer. This powerful realization highlighted the contagious nature of kindness, making everyone feel valued and appreciated.

At the culmination and grand finale of this campaign, the whole school came together to celebrate kindness and build confidence through various activities.

The highlight was the 'Confidence Beans' activity, where students exchanged messages of encouragement and support written on bean-shaped pieces of paper.

Students and faculty also took a collective oath to create a safe space for everyone, using their fingerprint impressions coloured in the signature Inventure colours of orange and blue. This symbolic act represented their commitment to making the world a better place filled with kindness, compassion, courage, and confidence.

As a token of appreciation and a reminder of their participation, badges were given to all students across primary and middle school. These badges symbolize their role in fostering a kind and confident community.

Football star in the making!

Vedant Roy, a student of Grade 10 at the Whitefield Sarjapur Campus was recently awarded Best Player of the Year for the DPDL (Double Pass Development League) Football League U15 Boys tournament. This was held in Bangalore and the U15 Football Boys team of BFC (Bengaluru Football Club) was placed first in the tournament. We are proud of Vedant's achievement.
