CUPA Shelter Visit Ignites Students' Passion for Animal Welfare - An enlightening experience for our Grade 6 learners.

Kaya Daluwatte Triumphs at the Nepal Amateur Open Golf Tournament - Our Grade 10 student Kaya wins the tournament.

Sensory Safari: A Day in the Life of a Curious Pre-Primary Learner - A walk with nature at our Whitefield-Sarjapur Campus.

Inventure Academy and Ramagondanahalli Government High School Renew a Successful Collaboration - Our wonderful collaboration endures.

CUPA Shelter Visit Ignites Students' Passion for Animal Welfare

"The greatness of a nation and its moral progress can be judged by the way its animals are treated" (MK Gandhi)

As part of the Community Outreach programme designed to raise awareness about the impact of human insensitivity to other life forms, Classes 6B and 6C from our Whitefield-Sarjapur Campus visited the CUPA Second Chance Shelter Home. During the visit they were made aware of the extreme trauma that animals, particularly dogs, were frequently compelled to endure. These included issues such as buying pets as trophy animals, unethical breeding practices, violence, and irresponsible pet ownership. The visit underscored the importance of being empathetic to all creatures on our planet. The students spent time with rescued dogs in a safe, supervised environment and left with a renewed respect for animal welfare and a powerful message: 'adopt, don't shop'.

Sensory Safari: A Day in the Life of a Curious Pre-Primary Learner

Our vast, beautiful campus at Whitefield-Sarjapur offers young learners abundant opportunities to connect with nature. Pre-Primary students spend 1-2 hours outdoors every day, enjoying physical education, playtime, and experiential learning. Recently, our learners integrated their theme 'Our Sense Organs' with nature walks.

They engaged their senses by observing the vibrant colours of leaves and birds, listened to bird songs and a myriad of other sounds of nature, took in the fresh fragrance of flowers and lemongrass, and experienced the magical tactile satisfaction of running their little hands over grass and tree bark. They also tasted coffee, limes, and sugar, enriching their sensory exploration.

These activities helped our learners to appreciate the natural world and understand how their senses worked in real-life contexts. Additionally, they practised kindness and empathy through interactions with our affectionate Inventure Therapy Goldies (our Therapy Dogs) and learnt valuable lessons on sensitivity.

Kaya Daluwatte Triumphs at the Nepal Amateur Open Golf Tournament

Kaya Daluwatte of Grade 10, from our Whitefield-Sarjapur Campus, claimed a well-deserved victory at the recently concluded 10th Nepal Amateur Open Golf Championship held at the picturesque Gokarna Golf Club in Kathmandu. This impressive feat showcased her unwavering focus on the course.

Her performance at the final round was outstanding and she bagged the championship title with consummate ease. Kaya's triumph marked a significant achievement and firmly established her position as a top contender in the amateur category.

Her exceptional skills and determination throughout the tournament brought immense pride to all of us at Inventure Academy.

Inventure Academy and Ramagondanahalli Government High School Renew a Successful Collaboration

Inventure Academy adopted the Government Higher Primary School, Ramagondanahalli in 2019, with the vision of transforming the school into a model English medium Government School. This also provided impetus to our dream of creating a hundred thousand Changemakers from across the socio-economic spectrum. On 26 June 2024, Inventure Academy, Whitefield Ready and the Department of School Education (DSE), signed the extension of the original MoU, renewing our partnership with the Ramagondanahalli Government High School for the next 10 years.

Over the last five years, the school has grown to become a Model PPP (Public Private Partnership) inspiring other Government Schools with its teaching and learning practices, child friendly ecosystem and a strong school culture rooted in values.

With Inventure's support in hiring, training and managing all the teachers for the English medium classrooms, and also running a robust Beyond Academics program across the whole school, we now have a vibrant community at the RGHalli Government High School. We continue to stride towards our vision of building a community of learners who are mindful of the impact of their choices on the environment, and to see our students graduate through school and college and return to be the Changemakers we have nurtured them to become.
