## Unleashing Creativity : Our Middle School 'Beyond Academics' Showcase at the Whitefield-Sarjapur Campus

The Middle School 'Beyond Academics' Showcase, Term I, was a culmination of the learning objectives of the different PODs that we offer students of Middle School for the 1st term. Detailed below are the highlights of the activities:

**Art:** The fundamentals of visual Grammar were reinforced as learners created individual artworks and group projects like portraits, figure drawings, clay sculpting, landscapes, still life studies and collages.

**Dance:** Students showcased hip-hop and contemporary dance styles while they learned the basics of choreography and musicality.

**Music:** Learners performed the song *Viva la Vida* by Coldplay as an ensemble. Through the intricate, rhythmic and harmonic interactions required to perform this pop rock piece, learners demonstrated effective collaboration and coordination.

**Theater:** Students displayed their learning through a performance which was scripted by them. They did the scene blocking using freeze frames.

**Yoga:** Students showcased *Hatha Yoga* while displaying how it helps create strength, flexibility, fluidity, control and more discipline in the body.

**Needlework & Embroidery:** Students showcased their learning of the fundamentals of hand embroidery, including transferring designs onto fabric, securing the hoop and mastering basic hand embroidery stitches to craft intricate patterns.

**Woodwork:** Students made a set of rocking horses for toddlers. They started by making a scaled down version, followed by a full scale one. They used a jigsaw, a drill and other hand tools.

**Chess:** Students displayed their learning through a demonstration of basic move notation comprehension, executing simple tactical manoeuvres such as captures, checks, and basic piece coordination. They learned to apply diverse tactical strategies and some of them attempted to master advanced tactical concepts and specific chess openings.

**Cooking:** Students showcased their learning journey by putting together a delectable spread of dishes for the audience.

**Book Club:** Students were introduced to various genres and showcased activities based on their creative skills such as poster making, review writing, weaving stories, graphics and composing poems. They also intend to publish their work in the *Carpe Diem Chronicles* or in this publication, at a later date.

**Pottery:** Students showcased their prowess on the potter's wheel and used 'underglazes' to design and decorate with colours and textures. It was a unique display of collaborative and team-based learning.

**Robotics:** Students created a six-legged walking robot, programmed to walk around a room without "bumping into obstacles".

**Improv comedy:** Students showcased their learning by displaying improv tools through storytelling by a performance within the realm of comedy.

Through PODS, the insistence on well-rounded education is taken a step further at Inventure Academy. The multi-age groupings helped learners work at their own pace and developmental needs. The focus was on developing and honing skills. During the showcase, students came up with their presentations and performances and took the audience through their learning journey for the Term.

## Grade 6 - Math Celebration of Learning

Our Grade 6 students at the Whitefield-Sarjapur Campus truly outdid themselves during their Math COL (Celebration of Learning). Their passion for Math was infectious as they eagerly explained their games and demonstrated their understanding of mathematical concepts. What was even more impressive was that these young learners created their own unique games and designed their own manuals based on what they had learned in class. It was a testament to their creativity and ingenuity.

## Inventure Academy Yeshwantpur Campus Hosts a Hugely Successful Open House!

Last week, Inventure Academy hosted a successful Open House event, welcoming prospective parents and students to the campus. The event provided a glimpse into our unique learning environment and the exceptional opportunities we offer.

Nooraine Fazal (Managing Trustee, CEO and Co-Founder) and Ramesh Hariharan (Head of School, Yeshwanthpur Campus), delivered inspiring addresses to the prospective parents who were the audience. Nooraine shared her vision for Inventure Academy's future, emphasizing the school's dedication to staying at the forefront of educational innovation and preparing students for the challenges and opportunities of the 21st century. She expressed her conviction that Inventure Academy is the ideal place for students to thrive and reach their full potential.

[Nooraine Fazal - OH 14 September](#)

[Ramesh Hariharan - OH 14 September](#)

The parents and children had the chance to tour our state-of-the-art facilities, including our spacious classrooms, modern laboratories, and the extensive Beyond Academics areas. They also met our experienced and passionate teachers, who shared their insights into our innovative curriculum and teaching methods.

## Inventure Academy Whitefield-Sarjapur Campus Swims to Victory!

Our talented young swimmers from the Whitefield-Sarjapur Campus made a splash at the ISSO National Games held at Pune last week, bringing home a sizable haul of medals and trophies! The team's dedication, hard work, and exceptional skills were on full display as they dominated the competition.

We are thrilled to announce that Inventure Academy secured an impressive 13 medals - 6 gold, 4 silver, and 3 bronze - at the ISSO National Games which saw 108 schools and 600 participants.

We are incredibly proud of our swimmers and their victory is a testament to their commitment, teamwork, and the excellent coaching they receive at Inventure Academy.

Congratulations to all the participants!

Our swimmers demonstrated exceptional skill and dedication, and did us proud!

Aayush Kannan Dutta (U 17 Boys) 400 meter Freestyle - Silver
