Independence Day Celebrations at Inventure Academy

Inventure Academy came together on August 15 to celebrate India's 79th Independence Day with pride, gratitude, and joy. The celebrations began with the unfurling of the national flag, accompanied by the singing of the national anthem—a moment that filled the campus with a deep sense of patriotism.

Students and educators showcased their creativity and spirit through cultural performances that highlighted India's rich heritage and diversity. Through music, dance, poetry, and thought-provoking skits, they reminded us of the sacrifices that won us freedom and the responsibility we share in carrying forward the values of justice, equality, and unity.

Our school leaders encouraged learners to reflect on what independence means in today's world—beyond political freedom, towards building a more inclusive, sustainable, and compassionate society. They urged students to dream fearlessly, act responsibly, and contribute meaningfully to the nation's future.

At Inventure, Independence Day is not just about honouring the past, but also about empowering our learners to shape the future of India with courage, creativity, and conviction.

What does it mean to be Inventurepreneurial?

At its heart, it's about spotting a problem and thinking, *"Hey, I can make a difference!"* It's about daring to dream up bold ideas - and having the courage to try them out.

At Inventure Academy, our **Inventurepreneurship program** is nurturing these very skills in our young learners. Through hands-on experiences, they're discovering how to:

- **Manage stakeholders** – considering the perspectives of everyone involved.
- **Navigate team dynamics** – collaborating like a true dream team.
- **Think critically and creatively** – exploring solutions with foresight and clarity.

Along the way, our students are learning to adapt when challenges arise, act with purpose and compassion, and embrace their role as **changemakers** who create meaningful impact in their communities. Because real, positive change always begins with **courage, hope, and action.**

Kindergarteners on a Journey with the Theme Transport 🚐🚢

Our youngest learners dived into the exciting world of *Transport* this week! 🚗✈️

PreK and Preschool children set off on a joyful **bus ride**, experiencing first-hand what it feels like to travel together. To make the theme even more fun and connected with nature, the children also crafted **paper boats** and floated them in rain puddles, watching their little creations sail away.

Through these hands-on activities, our children explored how different modes of transport work-by land and by water-while learning through play, curiosity, and joyful discovery.

Middle School Problem-Based Learning

At Inventure Academy, Whitefield Sarjapur campus, **Problem-Based Learning (PBL)** is more than just a teaching method - it's a way of empowering our students to think, question, and create. In this student-centered approach, learners don't just receive information; they dive into **real-world challenges**, working collaboratively to investigate, analyze, and design solutions. Along the way, they strengthen skills like critical thinking, creativity, teamwork, and resilience.

This term, our middle schoolers took on a range of thought-provoking problems:

- Ensuring **access to clean water** for communities in need
- Exploring **how history shapes culture** and identity
- Designing **sustainable food choices** for a healthier planet

Investigating the most effective **materials to make medical casts**

Through these projects, our students experienced the power of **interdisciplinary learning** - connecting science, history, design, and social awareness. More importantly, they realized that their ideas can make a difference.

At Inventure, we believe that solving meaningful problems today helps prepare our students to become the **innovators, leaders, and changemakers of tomorrow.**

Collaboration Project – Term I 🎨🌟

We are delighted to share that the **BA school** at our Yeshwanthpur campus has launched a unique collaboration project that beautifully integrates **Dance, Yoga, Theatre, and Music**.

Students from **Grades 6 to 8** have come together in four groups, each tasked with creating a **large canvas** that embodies creativity, expression, and teamwork. This cross-disciplinary initiative not only nurtures artistic skills but also highlights the power of collaboration and shared vision.

Our learners have been working on a series of large canvases designed to aesthetically enhance the spaces adjoining the **dance, yoga, theatre, and music studios**.

Through this project, students have:

- **Explored the process of research and ideation**, thoughtfully creating artworks that capture the unique vibe and energy of each space.
- **Learned the technique of scaling-up** their ideas onto large canvases.
- **Experimented with acrylic paints**, bringing bold colors and creative expressions to life.

One canvas is already adding vibrance to our campus, while the other three are in their finishing stages and will be unveiled soon. These stunning canvases will find their home in the respective studios—serving as lasting reflections of our learners' imagination, effort, and unity.

Sports News Update

🏆 Inventure Academy Crowned Overall Champions at Headstart Friendship Games 2025!

What an incredible achievement for Inventure Academy, Whitefield Sarjapur campus! Our athletes and teams delivered a stellar performance at the Headstart Friendship Games 2025, emerging as the Overall Champions for the very first time. 🎉

Athletics Medal Tally
