- Inventure Academy's Summer Camp: A Fun-Filled Adventure to Remember!

## Exploring Logical Thinking Through the Carroll Diagram

The **Carroll Diagram activity** at the Yeshwanthpur campus introduced students to an engaging and visual method of **sorting and classifying data** based on two attributes: reinforcing key concepts in **logical reasoning and data handling** as part of the mathematics curriculum.

By the end of the session, students demonstrated a **stronger grasp of categorization** and the concept of **binary sorting (yes/no criteria)**. They successfully classified **objects, numbers, and words** based on attributes such as **even/odd** and **greater than/less than**, fostering group discussions and analytical thinking.

## Activity Process

**Participants:** 16 students from Grade 2

### Structure:

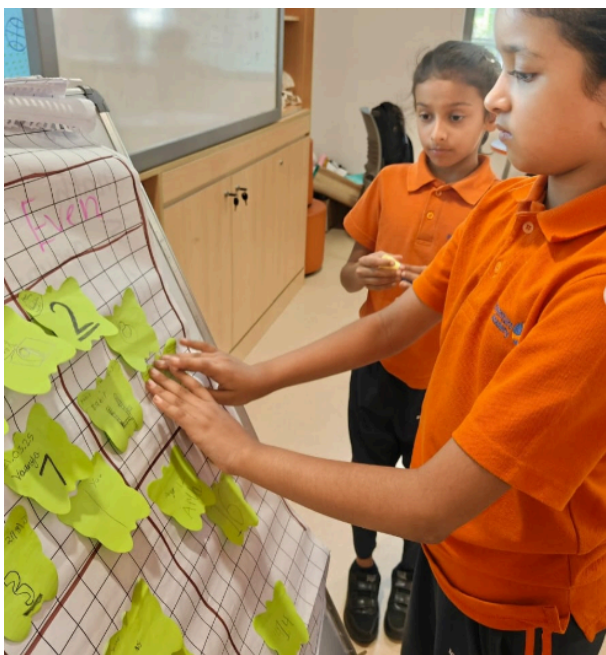

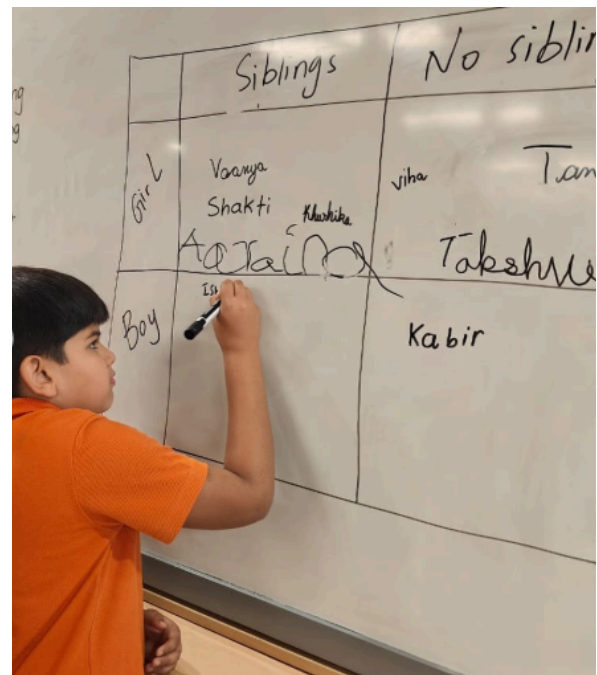

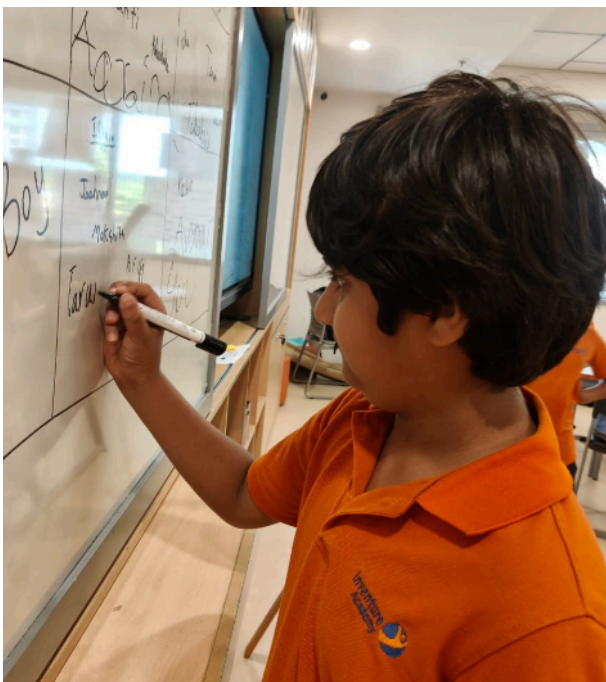

- The session began with an interactive introduction and demonstration of Carroll Diagrams.
- Students worked in pairs and small groups, using worksheets and real-life objects to categorize items.
- Hands-on exercises added a tactile and engaging dimension to learning.

### Student and Teacher Feedback:

Students found the activity fun, intellectually stimulating, and visually engaging.

Teachers observed high engagement levels and noted that the activity supported cross-curricular learning, incorporating both math and language skills.

**The Carroll Diagram** session not only strengthened students' problem-solving abilities but also made learning interactive and enjoyable.

## **A Celebration of Growth: The Moving Up Assembly at the Whitefield-Sarjapur campus**

**The Moving Up Assembly** was more than just a ceremony—it was a heartfelt celebration of our **Grade 5** students' journey, achievements, and cherished memories. This special event honored their transition from Primary to Middle School, capturing the essence of their growth, resilience, and excitement for the road ahead.

Filled with reflections, inspiring performances, and touching moments, the assembly beautifully showcased the students' joy, gratitude, and anticipation. Teachers and mentors shared words of encouragement, students reminisced about their experiences, and the air was filled with a sense of nostalgia and pride.

### **A Family Affair**

Parents and guardians were invited to join the celebration, capturing precious moments on camera and sharing in the joy of their child's success. Many were moved to tears as they watched their little ones confidently take the stage and receive their Moving Up certificates.

"It's a proud day for all of us," shared a K2 parent. "The teachers have done such a wonderful job nurturing our children, and this event beautifully reflected the love and care that define the Inventure experience."

### **Looking Ahead with Excitement**

As students received their certificates and posed for photos, the staff at Inventure Academy Preschool reflected on the significance of the day. Moving Up Day is not just a conclusion — it's a beginning. The ceremony introduced children to the idea of new adventures, helping them feel enthusiastic and ready for the transition ahead.

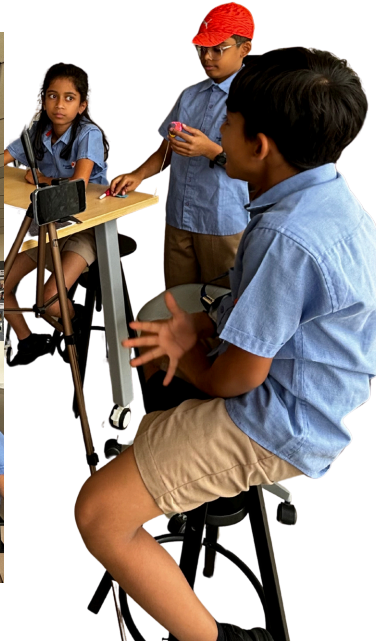

### **A Memorable Milestone**

The K2 Moving Up Day at Inventure Academy Preschool was a joyful celebration filled with pride, laughter, and hope. It was a tribute to the incredible growth of each student and a reminder of the importance of nurturing young minds with compassion and creativity.

## Stop Motion Magic at Makerspace: Bringing Stories to Life

In our recent **Makerspace sessions**, students from Grades 1 to 8 at the **Yeshwanthpur campus** stepped into the fascinating world of stop motion animation, where creativity meets technology. Using this classic filmmaking technique, students brought inanimate objects to life by capturing a series of still images, making small adjustments between each shot to create the illusion of movement.

With a spirit of innovation and teamwork, each group transformed their workspace into a miniature animation studio. Using foam boards for backdrops, their allotted Makerspace phones, and the Stop Motion Studio app, they meticulously crafted their own animated stories, frame by frame.

Beyond just moving objects, **students delved into the fundamentals of storytelling, learning how to build engaging characters, dynamic sets, and compelling narratives.** They explored voice modulation, frame rates, movement continuity, and timing—key components of effective animation. The experience also introduced them to the technical aspects of filmmaking, such as camera stability, lighting, set & character design and scene composition, all of which play a crucial role in producing high-quality animation.

This hands-on journey was more than just an exercise in creativity—it was a powerful lesson in collaboration, patience, and problem-solving. Watching students bring simple materials to life with imagination and perseverance was truly inspiring. One frame at a time, they proved that with passion and innovation, anything is possible!

## Inventure Academy's Summer Camp: A Fun-Filled Adventure to Remember!

On a bright and cheerful morning, our kindergarten and preschool campuses came alive with smiles, laughter, and proud applause as K2 students celebrated their Moving Up Day. This heartfelt event marked a significant milestone in the lives of the young learners, as they prepared to transition from preschool to the next stage of their educational journey.

### An Exciting Tapestry of Activities

From sunrise stretches to afternoon smiles, each day offered something new and inspiring. Campers were immersed in a diverse range of hands-on activities designed to ignite imagination and build life skills. Highlights included:

- **Dance & Drama:** Children took centre stage, building confidence and self-expression through lively performances and improvisation games.
- **Gymnastics:** Balance, agility, and coordination came into play as students learned the foundations of this dynamic sport—many flipped, tumbled, and stretched their way to newfound skills!
- **Bharat Games:** With traditional Indian games like *Kho Kho*, *Lagori*, and *Kabaddi*, kids discovered the joy of teamwork and cultural heritage in a high-energy setting.
- **Creative D.I.Y. Workshops:** Monster puppets, mandala art, and adorable paper cup pets were just a few of the imaginative crafts that brought joy and creative flair to the classrooms.

## The Thrill of Inventure Adventure Day

Midway through the camp, students geared up for the much-awaited Inventure Adventure Day—a day that blended nature, challenge, and exhilaration. From tent-pitching under the open sky to adrenaline-pumping rope activities like zip lining, students learned the value of courage, trust, and teamwork. Their proud smiles said it all!

### A Spectacular Grand Finale

The camp wrapped up with a dazzling Presentation Day, where students took to the stage and proudly exhibited their skills and creations. Parents and teachers were treated to:

- Global-themed dance and drama performances
- Impressive gymnastics demonstrations
- A colorful gallery of D.I.Y. crafts and artworks

The enthusiasm was palpable, with applause echoing across the campuses as each child stepped forward to shine.

### Lasting Memories and Lifelong Friendships

Beyond the activities and applause, the true success of the summer camp lay in the friendships formed, the confidence built, and the joy of learning in a nurturing environment. The Inventure Academy team poured their hearts into curating a camp experience that was safe, inclusive, and above all—unforgettable.

We're incredibly proud of our campers and can't wait to welcome them (and new faces!) back next year for another summer of discovery, fun, and adventure.

**Here's to many more magical summers at Inventure Academy!**
